

FreeMotion EPIC Selectorized

Refined, smooth and strong define the FreeMotion EPIC selectorized strength line. Founded on the ingenuity and reliability of the FreeMotion design, this fixed isolated line provides another strength solution. Members will feel the difference through **fluid movement patterns and simple adjustments** that can meet the needs of the beginner or elite athlete.

FreeMotion EPIC FreeWeights

Whether your members are disciplined lifters, just beginning to build strength or somewhere in between, FreeMotion EPIC FreeWeights provide **strength, comfort and stability**. With convenience and safety in mind, the integrated weight plate holders and “Y” shaped frame allow for easier lifting and spotting with the added benefit of an efficient footprint.

FreeMotion Group & Personal Training

Take your members’ workout to a new dimension with a dynamic, total-body workout in a small group setting. With FreeMotion Group and Personal Training, members can experience **integrated functional training** in a fun, social environment, geared to help them achieve results while building revenue for your facility.

FreeMotion Selectorized

Our bodies push, pull, bend, lift and twist in a three dimensional world. This simple observation is the inspiration behind FreeMotion – a design that continues to define the fitness industry. This one-and-only, full line of selectorized **functional training equipment** allows users of all fitness abilities to train the way they move and change their lives through fitness innovation.

FreeMotion Cardio

At the heart of every facility is Cardio, an essential part of your member's balanced fitness experience. FreeMotion Cardio's functional design **entertains, motivates and challenges** the user to achieve their fitness goals. While your members will enjoy the convenient features, you'll have peace of mind knowing your FreeMotion Cardio will be reliable for many years.

FreeMotion i.Tonic

The perfect complement to your members' workouts, the FreeMotion i.Tonic is the newest tool in training. While FreeMotion i.Tonic's sleek styling will peak the members' interest, it's the energizing experience that will have them looking forward to the next session. By adding **Whole Body Vibration** training to your facility's offering, you'll keep members engaged and set your facility apart from the rest.
